Host Site: Toyota Material Handling (WA)  
Kewdale Facility

**Toyota Material Handling WA  
Kewdale  
Wednesday June 4 2008  
4.00pm - 5.00pm**

Toyota Material Handling's West Australian dealership has opened a brand new all-encompassing facility in Perth, reflecting massive growth in the company over the last 18 months. The new TMH (WA) facility combines all of the rapidly expanding WA dealership's operations under one roof.

TMH (WA)'s product range includes Toyota Industrial Equipment, BT Lift Trucks and Raymond Forklifts, as well as Toyota Huski skid-steer loaders and Toyota towing tractors.

The new facility is a world apart from the previous facility in Canning Vale. The new building has expanded the workshop area by a factor of five (1000-square-metres) and the spare parts storage area by a factor of 10 (300-square-metres). TMH (WA) can now hold a large parts inventory - an important consideration in Western Australia - and there is ample room for growth.

The new facility also provided for faster supply of new and casual hire machines. It can hold up to 110 new machines in stock at any time, as well as casual hire machines.

TMH (WA) was established to replace the previous WA dealership Lifrite Toyota. For the first 20 months of its operations, the company was based in Canning Vale. Since opening on October 1, 2005, TMH (WA) has grown in total staff numbers from 8 to 42 and from 3 technical staff to 16 - with 12 mobile service vans.
