

## **UNIVERSITY SCHOLARSHIP WINNERS ANNOUNCED**

The Logistics Association of Australia Ltd (LAA) has much pleasure in announcing the winners of its University Scholarships Program for 2010.

This University Scholarships Program provides an incentive for undergraduate university students to undertake logistics and supply chain streams and majors, with the aim of pursuing careers in these areas.

In announcing the winners of the 2010 University Scholarships, Brad Harrison, LAA President, said that he was delighted at the response to the program. "It was very encouraging to see such an enthusiastic response from so many young people keen to further their careers in the supply chain and logistics industry. Applications were of a very high standard and the Selection Panel faced a difficult task in selecting final winners," he said.

Two Undergraduate Scholarships have been awarded for 2010, each for \$2,500. Each award includes membership of the LAA and will contribute to course related costs.

The winners of the 2010 Scholarships are Matthew Cameron-Gardner and Stasia Willoughby. Matthew is currently enrolled in a Bachelor of Business and Commerce studying Global Operations & Supply Chain Management at the University of Western Sydney, and Stasia is undertaking a double Bachelor of Management degree in Logistics and Supply Chain Management and Human Resource Management at the University of South Australia.
