

FRIEND OF THE LAA

During the past 60 years, the field of materials handling has developed into a highly sophisticated and important part of the Logistics and Manufacturing industries. As the global leader in lift truck attachments, forks and accessories, Cascade has played an important part in this growth and development.

Cascade designs and manufactures a variety of products that enable the conventional lift truck to become a more versatile and efficient materials handling tool. These products enable a lift truck to pull, push, clamp, lift, sideshift, position, tilt, extend and rotate practically any load imaginable.

In Australia, Cascade has been working with lift truck companies to provide world class products designed and manufactured in Australia. The Australian manufacturing facility produces over 80% of its products sold. It is one of three Cascade plants in the world manufacturing the Australian designed Series 4 Lateral Arm clamp. Cascade's Brisbane facility is the only plant in the world to be manufacturing the new light weight and high visibility Series 5 range of attachments.

Cascade works closely with forklift manufacturers and end users to ensure the most economical and practical products are supplied. No matter how big or small the company or application, Cascade's design team is on hand. From CSR Insulation and Carlton & United Breweries to smaller companies like Proplate Pty Ltd (specializing in steel profiling), Cascade's engineers and sales team are trained to ensure companies receive the optimal materials handling solutions.

Cascade is represented in all Australian states and territories and staff are available for assistance for all materials handling problems. Cascade's website [www.cascorp.com](http://www.cascorp.com) details many of the products which will surely offer assistance at a glance. For local assistance, contact Cascade at 1800 cascade (227 223) or [info.aus@cascorp.com](mailto:info.aus@cascorp.com)

Cascade, "Leading the world in quality lift truck attachments, forks and accessories."
