DHL offers expertise in express, air and ocean freight, overland transport, contract logistics solutions as well as international mail services, combined with worldwide coverage & an in-depth understanding of local markets. DHL's international network links more than 220 countries & territories worldwide. More than 275,000 employees are dedicated to providing fast & reliable services that exceed customers' expectations.

DHL Supply Chain is the recognised market leader in outsourced contract logistics services and nationwide transport solutions, both integrated and stand alone. DHL Supply Chain has the skills and resources necessary to take on warehousing, distribution and complex supply chain management assignments.

In Australia, the DHL Supply Chain business has grown considerably in the last six years. The business is now supported by over 1,500 employees and has multi user warehouses across Australia in every major city. The DHL Supply Chain business specialises in a number of industries:

- **Automotive:** Providing large-scale operations for Australia's Automotive Industry with Inbound to Plant activity as well as Spare Parts and After Market services.
- **Consumer:** This fast growing sector is serving manufacturers mainly the Grocery Channels, servicing market leaders with national requirements.
- **Healthcare:** Market leader in the pre-Wholesale Pharmaceutical market as well as Direct to Hospital, Medical Device, Animal Health Solutions and Consumer Health into Grocery.
- **Retail:** Supporting Retailers with in-to-store replenishment, online activity and last mile solutions.
- **Technology:** Providing Finished Goods and Spare Parts for the Technology sector as well as technical delivery and bespoke solutions. National Coverage for several major customers.

DHL Supply Chain in Australia also works closely with the DHL Supply Chain New Zealand business, sharing operations and solutions across the Tasman. Opportunities are welcomed through the team in Australia for cross Tasman challenges based on industry experience.

DHL Supply Chain locally prides itself on • Solution Driven Design and Pricing • Nationwide Coverage and Expertise • Tier 1 IT solutions and visibility • National Transport coverage for both Parcel and Pallet deliveries • Experienced Management team and Customer focus.

DHL Supply Chain believes supply chain management involves striking the right balance between 'cost' and 'service' but also as responsible citizens who believe the protection of the environment is a crucial part of our future, believe 'environmental cost' is also an important third factor in the development of logistics services.
