SUPPLY CHAIN INNOVATION & PROTECTION

Integra Packaging is a packaging solutions business with clients spanning defence, mining, infrastructure, logistics, aerospace, heavy vehicles, industrial, refining, utilities and general manufacturing. We have manufacturing and/or sales operations in QLD, NSW and VIC.

GLOBAL KNOWLEDGE

Integra Packaging offers world's best practice in packaging innovation. We create cost-effective solutions to protect and enhance our customer's products throughout the supply chain.

REGIONAL COVERAGE

We offer products and services throughout the Oceanic region, through our eastern seaboard facilities and alliance partners around Australia.

TRUE SAVINGS

Our audit and design professionals offer a complete solution, identifying areas of potential cost-take-out and lead-time reduction – and deliver real savings.

SUSTAINABLE EFFORTS

Integra Packaging has made a conscious decision from day 1 of its operation that our approach to sustainability would take a broad view. Through improved packaging design, better use of waste materials, purchasing from companies who harvest from renewable resources, recycling products for clients and finding a way to offer a reusable/returnable system to our customer base; Integra Packaging is both gradually fulfilling its' goals and assisting clients to achieve theirs.

A BETTER OUTCOME

With the benefits of a global network, Integra Packaging offers certainty for customers. Their products are protected and enhanced by a cost-effective, full-circle design process which delivers a complete packaging solution.
