

Integra Packaging gets involved in Clean Up Australia Day

Managing Director, Roger Till said "each of our three state offices took part in the 2010 'Clean Up Australia Day' for Business. It was the first time the Company involved teams from each office in Clean Up Australia - and it was a very positive experience". Each of the General Managers got involved in the Day and commented on the experience for them and their staff.

"Clean Up Australia Day was a fantastic opportunity for our team to work together on improving public areas of the community in which we work." **Keith Pomeroy - GM VIC**

"As a part of our sustainability commitment to the community in which we operate, we will proudly continue to be proactive in projects like Business Clean Up Australia Day." **Tony Dyer - GM NSW**

"Not only was the experience an opportunity to give something back to the community we operate our business in, it was also a great team building exercise." **Alistair Johnston - GM QLD**

"Integra continues its commitment to economic, social and environmental outcomes throughout its businesses - and the following are indicative" said Roger Till.

- Undertaken 'lean manufacturing' workshop leading to reduction in waste
- Continued participation in AQIS wood export (ISPM 15) program
- Purchased a powered sweeper - reducing water usage significantly
- Excellent shut down procedures - encompassing rest breaks and lunch break
- Collect and reuse or recycle pallets
- Regular maintenance ensuring optimal efficiency of equipment
- Minimal staff turnover - led by company commitment to staff and staff satisfaction
- Positive staff engagement leads to behavioural change and further initiatives
- Reusable packaging solutions - saving money, time and resources
- Embed sustainability as part of business planning and all operations
- Paper usage and recycled content / office paper is recycled.

"Our sustainability journey continues" said Roger.
