

FRIEND OF THE LAA

Material Handling offers a full range of cost effective, well engineered lift trucks, from IC and electric forklifts, to pallet trucks and specialised warehouse equipment. With advanced technology built into every component, each Linde delivers exceptional reliability, superior operator comfort and industry leading safety and environmental performance at market competitive rates. Of course, every Linde also comes with the full support of our national team of mobile service technicians and our extensive branch and distributor network.

Need a short-term rental? At Linde, you can take it one day at a time. We have a comprehensive range of material handling equipment available for short-term rental, whether it's for one day, one week, or five years. We also offer a great selection of pre-owned forklifts, so you can enjoy all the benefits of a premium Linde, at fraction of the cost.

On a budget? Check out Baoli – our new range of IC lift trucks designed to meet the economy segment of today's market. Baoli's standard torque converter range is backed by Linde service and support nationally.

**Whatever your material handling needs may be, from short-term rental to long-term productivity, we've got a solution to suit your business. Call Linde Material Handling today.**
