

FRIEND OF THE LAA

Manhattan Associates: The Supply Chain People

For 17 years, Manhattan Associates has concentrated exclusively on helping companies streamline their supply chains to achieve lower costs, higher profits and happier customers. Our 2,300 employees work directly to bring value to our 1,200 customers through research and development, training, implementation and ongoing support.

We build our knowledge of supply chain optimisation every day so that we can bring our customers the best possible solutions for their needs. Each year we invest more in supply chain research and development than any other company in world—in excess of \$53 million in 2007. We are committed to offering the best and deepest supply chain solutions to our customers.

Unlock the Value of Your Supply Chain with Manhattan's Deep Expertise and Broad SCOPE

Manhattan's SCOPE: Supply Chain Optimisation—Planning through Execution links all aspects of your supply chain to increase profitability, enhance customer satisfaction and protect your company's reputation. By taking a holistic approach to complex supply chains, Manhattan meets the demands of the most competitive companies to go beyond providing point solutions that just improve the performance of one aspect of the supply chain—often with unexpected consequences elsewhere. SCOPE's deep capabilities appeal to companies for whom high functioning supply chains are not just business critical, but central to their image and value.

SCOPE offers everything you need today, and the ability to continue to respond to your needs tomorrow:

Distribution Management www.manh.com/distribution_management

From your suppliers' loading dock to your customer's front door, streamline your distribution process, deliver faster and reduce costs.

Transportation Lifecycle Management

www.manh.com/transportation_lifecycle_management

Reduce costs, reroute around trouble spots, coordinate deliveries precisely and deliver more, faster, for less money. Connect your transportation network from procurement to delivery.

Order Lifecycle Management www.manh.com/order_lifecycle_management

Manage the order process efficiently from supplier to customer, and even back again, and you save money.

Inventory Optimisation www.manh.com/inventory_optimization

Avoid rush charges, excess inventory and unhappy customers with sophisticated inventory optimization capability.

Planning and Forecasting www.manh.com/planning

Accurately predict inventory requirements to increase sales, minimize working capital demands and keep customers happy.

Extended Enterprise Management

www.manh.com/xsuite_solutions/extended_enterprise_management

Collaborate with your trading partners to efficiently communicate and ensure goods move smoothly to your customers at minimum cost.

Supply Chain Visibility www.manh.com/platform_applications/supply_chain_visibility.html

See a single, consistent, real-time view of your entire global supply chain for greater inventory control.
