"Manhattan's ranking in ARC's Warehouse Management Systems Worldwide Outlook demonstrates our unique ability to deliver integrated solutions today that give our customers a short term path to success while also delivering long term value," said Jeff Baum, senior vice president, International (Asia Pacific), at Manhattan Associates. "In addition to Manhattan's first place ranking in the above 21 categories, we achieved a commendable second place ranking in ARC's 'Asia' regional category. This was based on a strong year for Manhattan in Asia-Pacific in which we grew our regional year-on-year revenues by 32 percent."

Baum continued, "Our entire suite of Distribution Management solutions is designed to give our customers flexibility and the ability to add complimentary solutions such as Distributed Order Management, Extended Enterprise Management and Labour Scheduling as their supply chain networks grow and mature over time. Already working with clients on over 60 countries, it is the very fact that we have such an extensive on-the-ground system implementation and support capability across the globe that is seeing Manhattan Associates fast becoming the supply chain systems vendor of choice for companies not just with locally focussed operations but for those with international operations and across which they wish to standardise their supply chain systems infrastructure."

Manhattan Associates' Warehouse Management, the core solution within the Distribution Management suite of the Manhattan SCOPE® solution portfolio, is designed to optimise every component in the distribution centre—space, people, inventory and equipment—to conserve effort, fill orders faster and more accurately, save space and reduce inventory. In

addition, Warehouse Management is engineered for optimal collaboration and communication with an extensive network of suppliers and partners.
