Peter J. Ellis & Associates is an Industrial Engineering, Materials Handling and Logistics consultancy. Established in 1981, hundreds of projects have been undertaken in manufacturing, warehousing and distribution industries, both locally and internationally.

## SERVICES

In order to achieve operational efficiency our services include:

- Warehousing, Distribution & Logistics Design
- Manufacturing, Production & Industrial Engineering
- Facilities Layout Planning
- Material Handling Design
- OH&S Reviews
- Productivity Reviews
- Project Management

Projects range from strategic analysis and concept development through to detailed design, procurement and implementation in existing or proposed facilities. Our analytical and CAD design tools allow seamless integration with other project team members such as architects, other engineering disciplines, MHE suppliers and BCA specialists.

As a client representative we independently source from a range of reputable and world class vendors of: storage, materials handling, technology and software products. Our tender processes ensure clients receive the most competitive responses.

## EXPERIENCE

Our clients cover a broad range of industries (Bulk raw materials, pharmaceutical, electronic equipment, FMCG, apparel, etc).

We have developed long-term relationships with many of our clients, setting up ongoing productivity programs and long-term strategic plans. Successful outcomes with local divisions of multi-national companies have led us to undertake works around Australia and overseas.

## RESULTS

Our projects have enabled clients to win national Supply Chain and Logistics awards including:

- 2009 SCLAA "Storage and Handling of Materials Award"
- 2007 SCLAA "Manufacturing Logistics Award"
- 2000 LAA "Supply Chain in Manufacturing Award".

Peter J. Ellis & Associates Pty Ltd is a founding affiliate in "Strategos International" with affiliates throughout the world.
