

FRIEND OF THE LAA

SSI SCHAEFER SYSTEMS INTERNATIONAL – The World’s Largest Logistics Systems Supplier

According to the annual ranking of the largest material handling systems supplier by “Modern Materials Handling” – a US publication, SSI Schaefer has emerged first on the list of Top 20’s for the fourth year running.

With 53 subsidiaries in 35 countries and 16 production sites worldwide, SSI Schaefer *is* the largest supplier and manufacturer in the world of industrial storage systems.

Schaefer head office is located in Sydney with a secondary office in Melbourne. We also have a network of Distributors in Perth, Melbourne, Brisbane, Adelaide, Tasmania, regional New South Wales and Victoria. In New Zealand and the Islands we operate through our Distributor based in Auckland.

Together with its subsidiaries SSI Schaefer NOELL, a supplier of complex logistic systems and complete automated warehouses, and SSI Schaefer PEEM, a specialist in distribution, conveying and picking systems, SSI SCHAEFER is the international market leader as supplier of integrated solutions for storage and plant furnishings.

All storage systems are designed to meet and exceed Australian, International EN and F.E.M standards and OH&S requirements, as well as being fully compliant with New Zealand Seismic Design Code (NZS1170.5-2004) and erected to FEM 10.3.01 Erection Tolerances.
