

FRIEND OF THE LAA

**swisslog**

Competence Collaboration Clarity Commitment

Swisslog is a leading global provider of integrated logistics solutions for automated or manual warehouses and distribution centres. We plan, develop and implement turnkey-ready logistics systems. We provide support and modernise existing facilities. Organisations including Woolworths, Coca Cola Amatil and Fosters Group are just a few customers experiencing the benefits a state of the art solution from Swisslog can offer.

Swisslog combines logistics consulting, engineering expertise and operational know-how for the benefit of our customers. We are by your side from the initial project plan to the functional support of the day-to day operations of your warehouses and distribution centres and even offer life time support services. As a general contractor, we stand by our solutions and guarantee the performance of the systems we deliver.

#### CONSULT & DESIGN

Swisslog offers comprehensive, industry specific consulting services and supports you in the optimisation of your corporate logistics – from the initial analysis and needs assessment to planning and implementation.

#### IMPLEMENT & INTEGRATE

Swisslog offers a committed partner for the full duration of your project. We integrate seamlessly various material flow subsystems and the respective system control software to ensure the successful implementation of your logistics solution. Our suite of original software is implemented around the globe and its universal applicability is unparalleled in the logistics industry.

#### MAINTAIN & MODERNISE

Swisslog maintains lasting customer relations based on mutual partnerships. Our global presence is critical to our support; we tend to our customers globally with local services. Swisslog modernise and extend existing logistics facilities to ensure our customers remain competitive tomorrow.

#### WE DELIVER THE LOGISTICS BUILDING BLOCKS FOR YOUR SUCCESS
