

FRIEND OF THE LAA

Toyota Material Handling has the widest range of forklifts and battery-electric warehouse products available in Australia, ensuring that whatever your requirements we have a suitable material handling solution. Our range of three leading global brands – Toyota Industrial Equipment, BT Lift Trucks and Raymond Forklifts – allows for a selection of counterbalance, electric powered pallet trucks, stackers, order pickers, reach trucks and narrow aisle equipment that is second to none.

Within Australia, over 40,000 Toyota forklifts have been sold, and the brand has been the Australian counter-balance forklift market leader since 1987. Toyota's selection of internal combustion and battery-electric counter-balance forklifts range from 0.9 tonnes right up to a massive 24.0 tonnes.

Both BT Lift Trucks and Raymond Forklifts are global leaders in the field of warehouse equipment, with a range of products committed to increasing your productivity and reducing your materials handling costs.

So whether you're after a hand-pallet truck for small jobs, a reach truck for the larger ones, or a 24 tonne counter-balance forklift for the really, really big ones, you can be assured Toyota Material Handling will have the products to satisfy virtually all your material handling needs.

Also, not only can Toyota Material Handling facilitate the sale and rental of new Toyota, BT and Raymond equipment, but we can assist when designing your new warehouse. Our team of experts can help you to optimise warehouse layout, maximising your material handling efficiency and productivity.

Why settle for anything less than the World's No.1 Forklift Brands?

In addition to its range of forklifts and warehouse equipment, Toyota Material Handling also distributes the Toyota range of skid steer loaders and tow tractors, commonly used for earthmoving and cargo-handling purposes respectively.
